There is an untapped power in praising God that the Church of the Lord Jesus Christ has yet to discover. Trials can be overcome and victories can be won by praising God – praising Him just because you love Him and because you believe in His ability to do for you what He has promised! The power of God is always available to set you free, but you tap into that power by praise! Praise keeps your eyes off the circumstances and onto God who performs wonders for you. Praise is the language of faith!
